Dear Philip:

On behalf of Disabled Sports USA, I would like to thank you for your second generous contribution of \$5,000.00 to help support the "**Wounded Warriors Disabled Sports Project**" to provide sports rehabilitation for the soldiers and Marines who are coming back from the wars in Iraq and Afghanistan with severe, life-changing injuries.

DS/USA is the most active organization providing sports rehabilitation for these service members. Our efforts are 100% funded by the private sector and people like you. *Our responsibilities make your donation more important than ever!*

DS/USA has served hundreds under our **Wounded Warriors Disabled Sports Project**, teaching soldiers and their family members how to snow ski, water ski, rock climb, cycle, outrigger canoe, fish, shoot, golf, run and wheelchair race, play wheelchair basketball, and other active sports. These experiences have acted as a foundation to catapult them to success. **AND it is free of charge to them, and a family member, thanks to your donations!**

Here are a few of the success stories from some of the severely wounded service members who received their sports rehabilitation with Disabled Sports USA. Army Captain David Rozelle, an amputee from a land mine explosion, has now been certified by the Army as "fit for duty" and was actually sent **back in combat** with his armored unit in Iraq! Marine Chief Eric Alva is pursuing a course of study in Athletic Training at his local college. Army Lieutenant Melissa Stockwell who lost her leg Iraq is now pursuing a course of study to become a prosthetist! Army Specialist Corey McGee, who was paralyzed from a land mine, is in an internship program with the Department of Veterans Affairs.

In all events offered to the soldiers and Marines, we have included family members so they can share in the experience. **Here is what a Mom of one of the Marine amputees said of HER experience:**

**"Many thanks to...all those associated with Disabled Sports USA. You are doing some terrific work for these young soldiers and Marines! I tell everyone I can about your organization and the incredible work you all do!!!!" Chris Hatcher**

Phil, forward  
working you  
to seeing you  
at Sci Spec!  
Thanks.  
Ken.

This is my favorite response from a soldier that has been through our program.

*“That moment where I was standing up on one ski....what a great moment. It’s cool to go and ski but having my son with me and trying to keep up, as a Dad and a guy trying to get back to something called normal....there was no pity in his eyes – it was, Dad’s back!”* Army First Lieutenant Ed Salau, amputee from Operation Iraqi Freedom.

Thank you again for all *you do* to help Disabled Sports USA rebuild lives through sports and help those facing the challenge of disability gain hope and confidence in their lives. Because of you, they are living our motto: *“If I can do this, I can do anything!”*

Warm regards,
